

PACKAGES & PARTNER PRICING

Partner prices — what you pay me. Bill your client whatever your market supports.

BROCHURE

5–7 pages, custom design on the client's brand, contact form, Google Maps, structured data, monthly lead report

TIMELINE*

3–5 business days

PARTNER PRICE

from €1,400

from \$1,650

CATALOG

Brochure + product/service catalog with categories and filters, order via WhatsApp/email, automatic import from Excel or marketplace export

TIMELINE*

5–7 business days

PARTNER PRICE

from €2,400

from \$2,800

PREMIUM

Catalog + one landing page per service/category for local SEO, full structured data, second-language version of key pages, testimonial collection

TIMELINE*

10–14 business days

PARTNER PRICE

from €3,400

from \$3,950

SHOP

Small e-commerce: cart, dynamic courier pricing via carrier APIs, parcel-locker selection across multiple carriers, order admin panel, payment and invoicing integrations (Stripe, Mollie, local providers)

PARTNER PRICE

quoted per project

* Timelines run from the moment I have the assets (copy, images, business data) **and** the approved design — not from the deposit. Protects both of us.

USD prices apply to US agencies. The currency is set in the statement of work.

Invoicing as a Romanian sole trader (PFA), not VAT-registered, so the prices are final.

WHAT YOU GET ON EVERY PROJECT

- Paperwork: NDA first, then one master services agreement (MSA) and a short statement of work (SOW) per project.
- 12-month non-solicitation: I never contact your clients directly.
- IP assigned to your agency on final payment — full source code, standard Astro, any developer can take it over.
- Unbranded staging links from day one, ready to share with your client as your own.
- Communication in your tools — Slack, email, Trello, Notion.
- Every message gets a reply within one business day.
- Live overlap with US Eastern time: 9 am–12 pm ET, Monday to Friday.
- Two rounds of revisions are included in every package. Extra rounds are quoted before I start them.
- Redirects and migration handled if the client is replacing an existing site.
- 30-day warranty: any defect in what I delivered is fixed free of charge.
- W-8BEN provided before your first payment.

Payment: 40% on kickoff, 60% on delivery — and delivery means the PageSpeed score on screen, verified together. Invoices in EUR or USD, paid by bank transfer.

Every site has a small backend: Turnstile-protected forms, enquiries saved and emailed, cookie-free click tracking, automatic monthly report. **Shop has a bigger one.** It runs on Cloudflare Workers + D1 with a small monthly infrastructure cost, stated in the quote. No surprises after launch.

HOW A PROJECT RUNS

01	Brief	Scope, brand assets, any design. Figma, a moodboard, or “like this competitor but better” all work.
02	Fixed quote in 24h	Price, timeline, what's in, what's out. In writing.
03	Design sign-off	You or your client approve the mockup before I write code.
04	Build	Unbranded staging link, updated as I go.
05	Delivery	PageSpeed test run together, code handed over, 30-day fix window starts.

GOT A BRIEF RIGHT NOW?

Send it. Fixed quote in 24 hours, no call required.
